# Timeline View

See also the Audio Tab in Project Options.

Audio Files can be dragged and dropped into the Timeline tracks from the Files List.

Note that the position (time) of the added audio file is determined by the "drop" action.

The corresponding Project Options / Audio Tab looks like this:

Project Options	The I can be a set of		-	×
Main	Add track Add audio file	×	▲ 00:00	00:19
Audio	Track 1	1:02	Original duration	0:19.927

			Soundtrack duration	1:02.214
			Loop the soundtrack	
			Convert tracks to MP	3 for EXE
			Bit rate	256 -

Note that the "Offset" value for the audio file in Track 2 in the above example is from 0 seconds on the Timeline. The "Offset" value for the second audio file in Track 1 would be calculated from the end of the first audio file in Track 1. Fade Ins and Fade Outs made via the Envelope Function are not reflected in the Project Options / Audio Tab.

### Images

• Dragging images into the Timeline View is NOT advised. This is best done in the Slide List View. The DROP point overrides the Project Options / Slide Duration default and can lead to confusion.
