

Split a Video

...across multiple slides.

1. Add a video to a Blank Slide 1 (O&A). Set the Transition to “Quick Transition” and the Slide Duration to (for example) 30 seconds.
2. In O&A / Properties designate the Video as “Master Video Track”.

3. Add the same video to a Blank Slide 2 (O&A). Set the Transition to “Quick Transition” and the Slide Duration to (for example) 30 seconds.
4. In O&A / Properties designate the Video as “Link to: xxxxx”.

5. Repeat steps 3 and 4 as many times as necessary to play the whole video.

OR

6. Copy and Paste Slide 2 as many times as necessary to play the whole video.
