

# Stroking Text in PTE

## Applying a Stroke Line to Text in PTE

- Enter your Text in the usual way in Objects and Animation and (in Properties) click on Text Shadow / Customise
- Select “Ring” as the type of shadow from the dropdown menu as shown below
- Make the settings as shown - the “Size” parameter will control the thickness of the stroke line

## Adding a Shadow to the Stroked Text

- Copy and Paste the Stroked Text so that you have two versions overlying each other
- Select the “back” version and apply the suggested settings in Text Shadow / Customise
