Timeline View

See also the Audio Tab in Project Options.

Audio Files can be dragged and dropped into the Timeline tracks from the Files List.

Note that the position (time) of the added audio file is determined by the "drop" action.

The corresponding Project Options / Audio Tab looks like this:

Last update: 2022/12/19 en-us:10.0:main-window_1:timeline_view https://docs.pteavstudio.com/en-us/10.0/main-window_1/timeline_view?rev=1568323566 11:45

Note that the "Offset" value for the audio file in Track 2 in the above example is from 0 seconds on the Timeline. The "Offset" value for the second audio file in Track 1 would be calculated from the end of the first audio file in Track 1. Fade Ins and Fade Outs made via the Envelope Function are not reflected in the Project Options / Audio Tab.

Other Controls in the Timeline View

Fit All Slides to Soundtrack	
Arrange Selected Slides	
Cut All Transition Points	Alt+Ctrl+H
Shift Transition Points	Ctrl+E
Set End of Last Slide at End of Soundtrack	
Export Soundtrack to File	Alt+E

- The "triple horizontal line" (Timeline Options) Icon brings up the menu shown above
- Fit All Slides to Soundtrack adjusts the time of each equally and fits them to the soundtrack time
- Arrange Selected Slides select a group of slides and arrange them equally spaced
- Cut All Transition Points moves all transition points to a point beyond the end of the soundtrack
- Shift Transition Points select one or more slides and move their transition point(s) by a fixed amount
- Set End of Last Slide at End of Soundtrack useful for synchronizing the end of the last slide with the soundtrack
- Export Soundtrack to File Choose WAV, or MP3 and Bit Rate

The Timeline Right Click Menu

- **Duplicate Audio Clip** This command will duplicate the selected Audio Clip in a new Audio Track
- Split Audio Clip This command will split the selected Audio Clip at the position of the cursor

The Mini Player

- The PLAY button starts the MINI-PLAYER from the Cursor Position
- The STOP Button stops the Mini-Player and returns the Cursor to the previous position
- The time shown at the end of the progress bar shows the End of the Last Slide
- The Four Arrow Icon starts the Full Screen Preview from the Cursor Position

Images

• Dragging images into the Timeline View is NOT advised. This is best done in the Slide List View. The DROP point overrides the Project Options / Slide Duration default and can lead to confusion.
